1. Introduction

The Framework for Responsible Investment in Land Intensive Agriculture (FRILIA) represents a transformative approach to bolstering sustainable investment in land-intensive agricultural projects across Nigeria. FRILIA aims to harness principles of stakeholder engagement, environmental and social risk management, community development, and more to enhance the resilience and sustainability of agricultural investments.

FRILIA stands as a beacon of innovation for investors seeking to align their agricultural investment projects with global sustainability standards. By integrating FRILIA principles into their investment process, investors can mitigate risks, enhance community relations, and promote long-term viability in their operations. These principles not only contribute to the success of individual investments but also support the overall growth and stability of the agricultural sector in Kwara State.

Effective communication with stakeholders is paramount in ensuring the successful implementation of FRILIA principles. Engaging stakeholders at every stage of the investment process fosters transparency, builds trust, and aligns diverse interests towards shared objectives.

By keeping stakeholders informed and involved, Kwara State cultivates a conducive environment for sustainable investment practices and fosters mutually beneficial partnerships within their communities.

This communication strategy outlines a dissemination plan for toolkits developed to unbundle FRILIA and promote effective adoption of the framework by stakeholders throughout the investment project lifecycle.

1.1 Objectives of the FRILIA Communication Strategy

1. Introduce the FRILIA toolkits to stakeholders.
2. Sensitize stakeholders on the toolkits and their applicability.
3. Ensure stakeholder buy-in.
4. Ensure access to the toolkits during FRILIA implementation.

2. Communication Strategy for Disseminating Toolkits

When developing the communication strategy for the toolkits, Kwara State will focus on the following key points:

1. What to Share:

- Define the important information in the toolkits that need to be shared with stakeholders.

2. Who to Reach:

- Identify the specific groups who need to be reached, like government bodies, MDAs, local government authorities, community leaders, investors, NGOs, and media.

3. How to Share:

- Decide on the best ways to communicate, such as workshops, meetings, infographics, emails, and online platforms.

4. Who's in Charge:

- Assign clear responsibilities to ensure that the communication strategy is carried out effectively.

2.1 Information Disclosure

The key information to be disseminated to stakeholders are the eight FRILIA Toolkits which address various thematic issues and provide templates to guide relevant MDAs and investors in applying FRILIA principles appropriately throughout the investment project lifecycle. These toolkits are:

1. Stakeholder Engagement Toolkit
2. Grievance Redress Mechanism Toolkit
3. Land Access, Easement and Involuntary Resettlement Management Toolkit
4. Valuation and Compensation Toolkit
5. Environment and Social Risk Management Toolkit
6. Community Needs Assessment and Community Development Plan Toolkit
7. Out-grower Models and Food Security Plan Toolkit
8. Global Memorandum of Understanding (GMoU) Toolkit.

2.2 Target Audience

The target audience for FRILIA toolkits and templates are the various FRILIA stakeholders within the State government, local government, federal government (where applicable), host communities and the investor community. It is imperative that stakeholders understand this approach to land intensive investments ahead of the period when an investment is made so that there is time to reflect on and fully understand the framework.

In deciding the target audience, stakeholders are grouped into categories as the consultation content and methodology may be the same for those falling into the same category or differ across categories.

Box 1: List of Potential Stakeholder Categories

- State Executive Council
- State-level MDAs
- Local government authorities
- Landowners and land users
- Traditional authorities
- Vulnerable groups
- NGOs, CBOs, and CSOs
- Lenders
- Local leaders
- Development Partners
- Investors
- Farmers
- Actual or potential employees and labour unions
- Media
- Representative groups for women and youths

Table 1: Example of Key stakeholders and their respective roles.

Stakeholder	Role
State Executive Council	Strategically support the project through its life circle
State Level MDAs	Work closely with the State Executive Council to implement strategic action plan of the project at state level
Local Government Authorities	Participate in intervention design as well as the evaluation of project on behalf of communities
Land owners and users, Traditional authorities, Local Leaders	Define structures and human resource within the local community for the project Implementing
Development partners, Investors	Funding and strategic oversight
Vulnerable groups, NGOs, CBOs, and CSOs, Farmers, Actual or potential employees and labour unions, Media, Representative groups for women and youths	Create awareness and mobilization of direct and indirect beneficiaries

3. Communication Channels:

Most project failures are due to poor communication with project stakeholders. Different stakeholders have unique and evolving requirements, expectations, and communication needs, requiring Kwara State Investment Promotion Agency to apply a range of different communication strategies to meet all stakeholder needs.

3.1. Pre-Implementation Communication

To kick-start the implementation of FRILIA, the Kwara State Investment Promotion Agency (KWIPA) convened a series of sensitization and consultative workshops with key stakeholders (see Annex 1 for the draft agenda of the workshop).

Following the workshop, any feedback from participants will be incorporated into the toolkits, which will then be finalized and officially issued by the Kwara State Investment Promotion Agency.

3.2. Implementation Communication

Once the toolkits have been finalized and officially issued by the Kwara State Investment Promotion Agency then the Agency ensured that the toolkits are disseminated to key stakeholders at a workshop (see Annex 2 for draft agenda for the workshop). Following this dissemination, relevant information about the toolkits were made available on the State's website and in the list of resources provided to investors and host communities during the Investment Approval Process (IAP). Copies were also be available in the relevant Ministries, Departments and Agencies responsible for each of the eight areas to ensure uniformity and applicability across the board. These are available in mainly soft copies for potential investors and other stakeholders.

The table below provides a structured guide for the KWIPA to effectively communicate the implementation of FRILIA with stakeholders, outlining key communication elements, strategies, and responsible parties to ensure transparent and timely engagement.

Table 2: Communication Strategy Table for FRILIA Implementation with Stakeholders

Communication Element	Description	Communication Strategy	Responsible Party
Objectives and Outcomes	Clearly define the communication objectives and outcomes to stakeholders.	Develop concise messaging on project objectives and expected outcomes.	KWIPA
Key Messages	Identify core messages to stakeholders regarding FRILIA implementation.	Create key messages highlighting project benefits, milestones, and impact	Ministries of Agriculture, Ministry of Land, Kwara Broadcasting Corporations, Ministry of Local Government & Chieftaincy Affairs, Private Media Houses and CSOs
Audience Segmentation	Categorize stakeholders based on their roles, interests, and communication preferences.	Tailor communication strategies to address the specific needs and interests of different stakeholder groups.	Ministry of Local Government Affairs, Ministry of Lands

Communication Element	Description	Communication Strategy	Responsible Party
Communication Channels	Determine the most effective channels for reaching stakeholders (e.g., workshops, newsletters, social media).	Utilize a mix of channels such as workshops, social media, email updates, and community meetings for broad reach.	Ministry of Lands, Ministry of Agriculture, Ministry of Local Government & Chieftaincy Affairs, Private Media Houses
Communication Timeline	Establish a timeline for communication activities to ensure timely updates and engagement with stakeholders.	Develop a communication calendar with milestones and regular updates on project progress.	Kwara State Investment Promotion Agency
Feedback Mechanisms	Implement mechanisms for stakeholders to provide feedback, ask questions, and share concerns.	Set up feedback mechanisms such as surveys, suggestion boxes, and feedback sessions to gather stakeholder input.	KWIPA, & Relevant MDAs
Engagement Activities	Plan interactive engagement activities to involve stakeholders in the implementation process.	Organize engagement activities like focus groups, webinars, and town hall meetings to foster dialogue and collaboration.	KWIPA & Relevant MDAs
Risk Communication	Address potential risks and challenges transparently to stakeholders and provide mitigation strategies.	Develop risk communication protocols and messaging to address concerns and maintain stakeholder trust.	KWIPA & Relevant MDAs
Monitoring and Reporting	Establish monitoring mechanisms to track communication effectiveness and report on engagement outcomes.	Monitor communication metrics, gather feedback on messaging, and report on stakeholder engagement progress regularly.	KWIPA & Relevant MDAs
Capacity Building	Provide training and resources to stakeholders to enhance their understanding of FRILIA and their roles in the implementation process.	Conduct capacity building workshops, webinars, and training sessions to equip stakeholders with relevant knowledge and skills.	KWIPA & Relevant MDAs

Annex 1: Pre-Implementation Workshop Outline

Training Workshop Outline: Introduction to FRILIA for Stakeholders

Objective: The training workshop aims to introduce stakeholders to FRILIA principles and objectives, FRILIA toolkits, and the implementation process.

Duration: Full Day Session (8 hours)

Agenda:

Welcome and Introduction

- Welcoming remarks and setting the context for the workshop.
- Brief overview of the workshop objectives and agenda.

Understanding FRILIA

- Presentation on the core principles and goals of FRILIA.
- Importance of sustainable agricultural practices and investor engagement.

Introduction to FRILIA Toolkits

- Overview of the key toolkits developed for stakeholders.
- Explanation of each toolkit and its relevance to sustainable agricultural projects.

Interactive Session: Toolkit Application

- Group activity or case study exercise to apply the toolkits in hypothetical scenarios.
- Discussions on applying the toolkits to real-world projects and challenges.

Stakeholder Engagement and Feedback

- Importance of stakeholder engagement in the success of FRILIA.
- Open discussion for stakeholders to provide feedback, ask questions, and share insights.

Next Steps and Action Planning

- Summary of key takeaways from the workshop.
- Action planning session for stakeholders to identify their roles in the IAP and compliance with FRILIA principles, alike.

Closing Remarks and Networking

- Appreciation of stakeholder participation.
- Networking opportunity for stakeholders to connect and collaborate post-workshop.

Materials Needed:

- Presentation slides on FRILIA principles and toolkits.
- Case study/scenarios where FRLIA principles have been applied and benefits realized.
- Handouts or materials detailing the content of each toolkit.
- Flip charts, markers, and sticky notes for interactive activities.
- Evaluation forms for feedback collection.

Annex 2: Workshop for FRILIA Toolkit Dissemination

Stakeholder Engagement Workshop for FRILIA Toolkit Dissemination

Objective: The workshop aims to introduce stakeholders to the toolkits developed for implementation, facilitate understanding of key frameworks, and foster engagement for successful adoption in land-intensive agricultural projects.

Duration: Full-Day Session (8 hours)

Agenda

Registration and Welcome

- Registration of participants
- Welcome and introduction to the workshop objectives.

Overview of FRILIA and Toolkit Introduction

- Presentation on the background of FRILIA initiative
- Introduction to the toolkits and their significance in sustainable agricultural development

Stakeholder Engagement and Needs Assessment

- Understanding the importance of stakeholder engagement in project success
- Needs assessment discussions with stakeholders.

Deep Dive into Toolkit Frameworks

- Breakout sessions for each toolkit area
- Guided exploration of toolkit frameworks and templates

Interactive Activity: Applying Toolkits

- Group exercise to apply toolkit principles to case studies.
- Q&A session with toolkit experts

Stakeholder Feedback and Open Forum

- Opportunity for stakeholders to provide feedback on toolkits.
- Open discussion on challenges, opportunities, and best practices

Action Planning and Commitments

- Group activity to develop action plans for toolkit implementation.
- Individual commitments to support toolkit utilization in projects.

Closing Remarks and Next Steps

- Summary of key takeaways from the workshop
- Distribution of toolkit resources and materials
- Acknowledgment of stakeholder contributions and next steps for implementation

Materials Needed:

- Presentation slides on FRILIA principles and each toolkit.
- Case study/scenarios where FRLIA principles have been applied and benefits realized.
- Handouts or materials of each toolkit.
- Printed and soft copies of case studies for each toolkit
- Flip charts, markers, and sticky notes for interactive activities.
- Evaluation forms for feedback collection
- Stakeholder Contact Information Sheets
