1.0 Introduction

In any association between two individuals or more, be it friendship, family, workplace, business dealings, or community relation, there is bound to be grievance. This also applies to land-based intensive agricultural Investments leveraging FRILIA. Grievances in this case usually arise for various reasons such as unfair treatment, compensation issues, environmental and social impact of investments, abuses in various forms, interpersonal conflicts, personality clashes, and lack of proper and effective communication. Effective resolution or redress of such grievances or complaints when they arise promotes safe, sustainable, and secured investments; hence, a formal, fair, reliable, transparent, and culturally appropriate Grievance Redress Mechanism (GRM) must be put in place.

A GRM in land-based agricultural investment refers to a structured system of addressing complaints, disputes, grievances or appeals that may arise from various stakeholders involved in agricultural investments, particularly those related to land use, ownership, or management. It is a systematic process designed to receive, investigate, respond to, and resolve complaints, grievances or appeals from stakeholders, including individuals, communities, employees, and other parties affected by an organization's activities, projects, or policies. The GRM provides a structured pathway for stakeholders to voice concerns, seek resolution, and receive feedback in a fair, reliable, transparent, timely and culturally appropriate manner.

1.1 Objectives of Grievance Redress Mechanism

The primary objective of the GRM Toolkit is to provide guidance in establishing a mechanism that will ensure that complaints, disputes, grievances, concerns and appeals from stakeholders are addressed promptly, effectively, transparently and in a culturally appropriate manner. To achieve this broad objective, the GRM must:

- a. **Resolve Complaints Efficiently:** Provide a clear, transparent, and accessible process for resolving concerns, grievances and appeals. Grievances and appeals should be handled promptly, fairly, and early to minimize avoidable degeneration or escalation of issues.
- b. **Enhance Stakeholder Trust and Satisfaction:** Build trust and maintain good relationships with stakeholders by showing responsiveness to their concerns through a demonstrated commitment to address stakeholder issues. This improves satisfaction by resolving grievances or appeals in a manner perceived as fair and transparent.
- c. **Promote Accountability and Transparency:** Ensure that the investment project is accountable to its stakeholders and operates transparently. Clear procedures and effective communication of the outcomes of grievances or appeals must be a priority.
- d. **Identify and Mitigate Risks:** Through analysis of grievances and appeals, systemic issues and potential risks are identified. Implementation of corrective actions mitigate identified risks and prevents recurrence.
- e. **Improve Project Performance and Compliance:** Enhance overall project performance by addressing and learning from grievances and appeals. This is achieved by ensuring compliance with legal, regulatory, and contractual obligations to foster a culture of continuous improvement by integrating feedback from grievances into policies and practices.
- f. **Empower Stakeholders:** A GRM provides stakeholders with a voice and a formal avenue to express concerns and appeals. It must ensure that all stakeholders, including vulnerable groups, have access to the GRM, and a mechanism for stakeholders to participate in decision-making processes related to grievances.
- g. **Support Ethical and Social Responsibility Goals:** Establishing a GRM is a display of commitment to ethical behaviors by addressing grievances related to misconduct or unethical practices. It is also a lever for social responsibility initiatives by ensuring issues affecting communities and the environment are resolved promptly, effectively, and transparently.

- h. **Cultural Sensitivity and Gender Inclusivity:** An effective GRM should be gender sensitive, respect traditions, local customs and language, social norms and be culturally relevant.
- i. **Maintain Social License to Operate:** An effective GRM promotes continued support and acceptance from the community and other stakeholders. This fosters positive community relations and prevents conflicts.
- j. **Enhance Learning and Adaptation:** The GRM can also be a learning tool to adapt and improve project processes and better meet stakeholders needs through adaptation of practices based on feedback from the grievance redress processes.

By achieving these objectives, this GRM toolkit will help investment projects in Kwara State to manage stakeholder relationships effectively, improve operational processes, and maintain their social license to operate.

1.2 Basic Grievance Redress Mechanism (GRM) Principles/Characteristics

An effective GRM should be guided by several principles, among which are:

- a. **Accessibility:** A GRM must be accessible to all stakeholders, irrespective of the remoteness of the area they live in, the language they speak, and their level of education or income through various channels (online, in-person, phone, etc.).
- b. **Simplicity:** Procedures to file grievances must be simple so that stakeholders can understand.
- c. **Fairness:** Grievances must be treated confidentially, assessed impartially, and handled transparently.
- d. **Timely:** All grievances, simple or complex, must be addressed and resolved as quickly as possible, and actions must be constructive.
- e. **Inclusiveness:** Special attention must be given to ensuring that poor people and marginalized groups, including those with special needs, are able to access the GRM.
- f. **Responsiveness:** The GRM must be responsive to the needs of all complainants. Accordingly, officials handling grievances are trained to take effective action upon, and respond quickly to, grievances and suggestions. There should be timely acknowledgment, investigation, and resolution of grievances.
- g. **Feedback Mechanism:** Provision of feedback to stakeholders on the outcomes and any actions taken.
- h. **Objective and Independent:** The GRM operates independently of all interested parties to guarantee fair, objective, and impartial treatment to each case. GRM officials must have adequate means and powers to investigate grievances.

1.3 FRILIA Principles Applicable to Grievance Redress Mechanism (GRM)

These principles are underpinned by the FRILIA Principles:

- a. Investment should occur transparently (**Principle 1.2**).
- b. Investment should be subject to consultation and participation, including the disadvantaged and vulnerable, informed of their rights and assisted in their capacity to negotiate (**Principle 1.5**).
- c. Investment should safeguard against dispossession of legitimate tenure rights holders (**Principle 2.1**).
- d. Provide for the protection of rights through Grievance Redress Mechanisms that provide accessible and affordable procedures for third party settlement of disputes, including but not limited to disputes arising from displacement or resettlement. These mechanisms consider the availability of judicial recourse and community and traditional dispute

resolution mechanisms (**Principle 2.3**).

1.4 Scope of Kwara State GRM Toolkit

The scope of Kwara State Grievance Redress Mechanism toolkit covers the following:

- a. Background
- b. Kwara State GRM Institutional Arrangements
- c. Kwara State GRM Processes and Procedures

By defining the scope clearly, this GRM Toolkit will help investors to effectively manage and resolve grievances and appeals, contributing to improved organizational performance, stakeholder satisfaction, and overall project or operational success.

2.0 Background

The current grievance redress mechanism in Kwara State is a largely formal and adaptive process, with standardized procedures and dedicated governance framework in place. Complaints and appeals are handled with varying level of consistency, transparency, and fairness. There is no clear guidance on how to report, investigate, and resolve grievances sometimes leading to confusion and frustration amongst stakeholders. The process has no defined timelines or accountability mechanisms, resulting in delays and inadequate responses. Additionally, there is limited transparency and, ineffective communication and feedback systems, leading to a lack of trust and satisfaction with the process. Overall, the mainstreaming of FRILIA principles into the current grievance redress mechanism in Kwara State will ensure fairness, efficiency, and effectiveness in addressing the concerns of all stakeholders. To address this, the state in consultation with stakeholders has developed the GRM discussed in subsequent sections with guidance on how different stakeholders can engage the mechanism in resolving concerns, complaints and appeals.

2.1 Categories of Grievances:

The top priority of a GRM according to international best practices is to avoid grievances. This is done by identifying the root cause(s) of land-related grievances and proactively pre-empting or addressing them. Nonetheless, there will be some grievances that will require reactive measures; how the GRM adapts lessons from such occurrence to prevent/minimize future occurrence is crucial. Some common causes of land-related grievances and disputes between stakeholders, such as community members, government, employees, and management of projects/investors are identified below:

- Issues related to project implementation, operational activities, and service delivery.
- Negative environmental, social, and economic impacts.
- Human rights violations and labour issues.
- Misconduct, corruption, and fraud.
- Inadequate stakeholder engagement.
- Delayed payment.
- Speculative planting to get more money.
- Multiple and overlapping claims on the same parcel of land.
- Failure to consider some assets, such as shrines.

- Disregard for cultural heritage.
- Unfulfilled local employment quota.
- Failure to carry out community development initiatives.
- Disagreements over resource allocation or benefit-sharing.
- Destruction of community infrastructure.
- Destruction of access routes.

Where grievances cannot be avoided, mitigation measures should be taken to reduce grievances and their impacts. Examples of some mitigation measures are outlined in Table 1

Table 1: Actions that can be taken to avoid grievances.

1	Establish a user-friendly GRM	9	Always keep appointments with communities
2	Provide adequate and timely information to communities and the public.	10	Build the capacity of the project staff, especially the ones relating with communities and external stakeholders
3	Conduct effective, meaningful, and interactive community consultations	11	Dispel rumor mongering
4	Allow Q&A sessions after engagement with stakeholders	12	Set and manage expectations early in the project
5	Confirm all Project components and beneficiaries	13	Develop easy to understand and culturally appropriate Key Entry Messages
6	Develop and implement the Stakeholder Engagement Plan	14	Be inclusive
7	Identify all the vulnerable persons and engage with them adequately	15	Under-promise, over-deliver, and timely delivery of what is agreed
8	Evaluate, and incorporate mutually agreed compensation details in land allocation letter	16	Ensure compensation is paid directly to target beneficiary

2.2 Basic Elements of GRM Design

A GRM must be designed to incorporate the following:

- A dedicated uptake point to receive grievances, e.g., call center, emails, text messages, suggestion boxes, website, local offices, etc.
- Culturally appropriate ways of handling community concerns.
- A process that is simple, clear, easily accessible, and understandable to all the affected communities at no cost.
- It must provide for anonymity, be secure and prevent retribution or intimidation.
- A pathway that allows for appeals and recourse to an open court system.

- f. A reasonable time frame for resolutions and feedback.
- g. It must show transparency, objectivity and accountability in its processes and outcomes.
- h. It must recognize the uniqueness and diversity of grievances/appeals, and therefore decision making should be flexible.
- i. A dedicated unit/department and a register to receive, record and track the resolution of grievances.

3.0 GRIEVANCE REDRESS MECHANISM INSTITUTIONAL ARRANGEMENT

The institutional arrangement for a GRM refers to the organizational structure, roles, and responsibilities established to receive, investigate, and resolve complaints, grievances or appeals. Such structure must ensure that the GRM is accessible, transparent, culturally appropriate and effective at all levels, providing a structured approach to address grievances and appeals related to land-based agricultural investments under FRILIA. It also ensures sustainability of the GRM and its advantages.

The management and oversight of the FRILIA GRM toolkit and its accompanying templates shall be domiciled within the Kwara State One Stop Investment Centre (ISIPA Coordinated centre). The Ministry of Lands will appoint a FRILIA Grievance Officer (FGO)/ Grievance Redress Desk Officer, who will manage and coordinate the GRM as related to land-based agricultural investment in the State. 4.0 Kwara State Grievance Redress Mechanism Process and Procedure

The process of reporting a grievance/appeal should be easily accessible and unintimidating to any stakeholder. The preferable channels for reporting grievance/appeals can be discussed with the community as part of community engagement.

Following the establishment of the channels above, the method for addressing grievances/appeals is systematic and is divided into seven key steps.

The following steps outline the process for resolving a grievance. This process is presented in a diagram in **Figure 2** above and all grievance forms contained in the Appendix.

- Step 1: Submit and register grievance/appeal.
- Step 2: Acknowledge grievance/appeal.
- Step 3: Initial assessment for eligibility
- Step 4: Investigation
- Step 5: Grievance/appeal resolution and implementation.
- Step 6: Closure of grievance/appeal.
- Step 7: Monitor.

The FRILIA grievance redress procedure is displayed in 6 steps as illustrated in **Error! Reference source not found.** below.

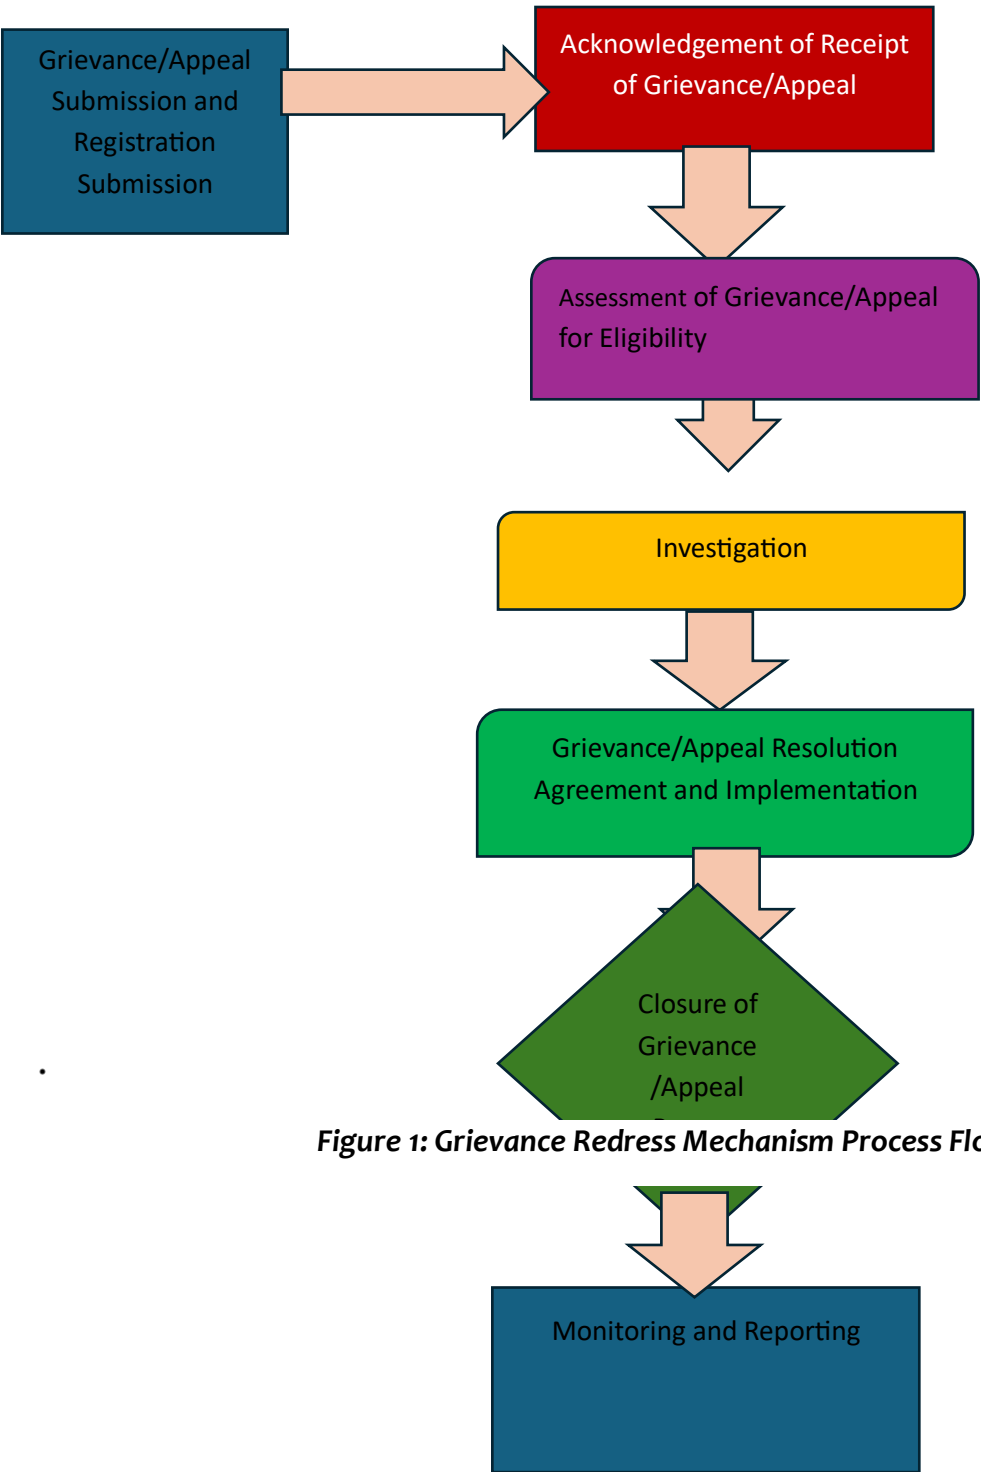

Figure 1: Grievance Redress Mechanism Process Flowchart

Step 1: Submit and Register Grievance/Appeal

Grievances/Appeals shall be submitted through any of the following channels Kwara State Lands Use and Allocation Committee, Kwara State Investment Promotion Agency One Stop Investment Centre, Kwara State Ministry of Lands and Ministries of Agriculture to the Grievance Social Officer for onward transmission to the relevant Grievance Redress Committee.

All grievances shall be registered using the Stakeholder Grievance/Appeal Form (**see appendix A**). The Officer will log, document, process and track all grievances/appeals received. Grievances/Appeals shall be assigned a case number, and records of communication/consultation shall all be attached with the relevant entry and filed. The logbook (**see Appendix F**) shall be monitored regularly for recurring grievances so that appropriate mitigation can be developed.

Box 1.0 Tips for Receiving a Grievance/Appeals

- Regardless of who receives the grievance/appeals, it needs to be forwarded to the appropriate FRILIA Grievance Unit in the MDA for attention.
- The grievance redress mechanism should make it possible to lodge a grievance/appeal in any appropriate format (written, verbal, telephonic, email, post, etc.). Consideration should be given to capturing concerns raised informally or indirectly (e.g., through perception studies, media reports, social media, etc.).
- It is important that the process is easily accessible and not intimidating to stakeholders.
- Regardless of the form of the complaints/appeals, all need to be addressed with the same sincerity and seriousness.
- The FRILIA Grievance Social Officer will be required to be in touch with the complainant at least once per month to provide feedback on the grievance.

Step 2: Acknowledge Receipt of Grievance/Appeal

The receipt of all grievances/appeals shall be acknowledged as soon as possible, but no more than 14 working days from the date it was submitted. The recipient shall inform the complainant/appellant about the timeline to expect a response. A Grievance Receipt Form shall be signed (**see Appendix B**).

Box 2.0 Tips for Acknowledging a Grievance/Appeals

- Literacy levels should be taken into consideration when providing the complainant/appellant with the acknowledgment of receipt, and verbal acknowledgement should accompany a written acknowledgement.
- Where appropriate, acknowledgement should be provided through the Grievance Social Officer.
- FRILIA Technical Committee Chairman, Kwara State One Stop Investment Centre, Chairman, Land Use and Allocation Committee, Commissioner for Lands and Commissioners for Agriculture must be copied

Step 3: Assess Grievance/Appeal for Eligibility

a. Determine whether the grievance/appeal is eligible.

- Eligible grievances/appeals include all those that are directly or indirectly related to the FRILIA Project and that fall within the scope of the Grievance Redress Mechanism as outlined herein.
- Ineligible complaints/appeals may include those not related to the Project,

whose issues fall outside the Grievance Redress Mechanism procedure's scope.

- b. If the grievance/appeal is deemed ineligible, it can be rejected, but a full explanation of the reasons must be given to the complainant/appellant and recorded in the Grievance/Appeal logbook (**see Appendix F**).
- c. If the grievance/appeal is eligible, proceed with the whole GRM process

Step 4: Investigate Grievance/Appeal

A thorough investigation should be carried out. The following steps may be carried out in a timely manner to avoid delaying resolution of the grievance/appeal:

- a. Obtain as much information as possible from the complainant/appellant and others mentioned in the grievance/appeal to gain a first-hand understanding of the grievance/appeal.
- b. Undertake a site visit, if required, to clarify the parties and issues involved. Gather the views of other stakeholders, if necessary, and identify initial options for settlement that parties have considered.
- c. The severity level of the grievance/appeal should be determined using the significance criteria matrix (**see Table 3**). This will help to determine whether the grievance/appeal can be resolved immediately or requires further investigation.
- d. If the grievance/appeal concerns physical damage (e.g., to crops, houses, or community assets), take a photograph of the damage and record the exact location as accurately as possible.
- e. Inform the complainant/appellant of the expected timeline for resolution of the grievance.
- f. Enter the findings of the investigation in the Grievance/Appeal logbook (**see Appendix F**).

All grievances/appeals are proposed to be resolved within 21 working days of the date they were received. This timeline can be extended to 31 working days for more complex grievances/appeals.

Table 3 Significance Rating Criteria

Significance Level	Description of Criteria	Responsibilities
Level 1	a. A grievance that is isolated or 'one-off' and essentially local in nature and restricted to one complainant. Note: Some one-off grievances/appeals may be significant enough to be assessed as a Level 2 grievance/appeal e.g. when a national or international law is broken	Community Grievance Redress Committee
Level 2	a. A grievance that extends to the local community or region and has occurred more than once, which is judged to have the potential to cause disruption to the investment project or impact beyond the local community.	Local Government Grievance Redress Committee
Level 3	a. The complainant/appellant is dissatisfied with the resolution of the GRC. b. The complainant/appellant believes that there were procedural errors or lapses in the initial grievance handling process. c. The original handling of the grievance did not adhere to the established procedures or policies	GRM Appeal Committee

Significance Level	Description of Criteria	Responsibilities
	<p>of the GRM.</p> <p>d. The complainant/appellant has valid reasons to believe that the initial grievance handling was biased or influenced by a conflict of interest.</p> <p>e. The complainant/appellant believes their rights or the project's policies were violated in the resolution process.</p>	
Level 4	<p>a. A final decision from the GRM and the appeal committee has been issued, but the complainant/appellant remains dissatisfied.</p> <p>b. The issue involves allegations of legal violations or breaches of human rights that require judicial intervention.</p> <p>c. The grievance involves complex technical, legal, or regulatory issues that cannot be adequately addressed through internal GRM mechanisms.</p> <p>d. The parties involved may require a formal and legally binding agreement to ensure compliance with the resolution.</p> <p>e. Formal resolution is necessary to prevent further harm or escalation of the issue.</p>	Arbitration/Litigation

Step 5: Grievance/Appeal Resolution

All grievances/appeals shall be dealt with on a case-by-case basis. However, all will require further discussions with complainants and community members that seek to jointly identify and select measures for grievance settlement. This will help to increase ownership of solutions and to mitigate perceptions that resolutions are unfair.

- The Grievance Redress Committees are tasked with seeking resolution to the grievances/appeals. This may entail a dialogue or series of dialogues between affected parties to find a solution to the grievances/appeals. Alternatively, it may entail investigating the underlying cause of the grievance/appeal and any changes required to internal systems to prevent a recurrence of a similar grievance.
- A Grievance/appeal Investigation Report using the Grievance Committee Proceedings Template (**see Appendix C and D**) will be completed within 14 to 21 working days.
- During the 14 to 21 working days of dialogue or investigation, the GRC will handle conflict resolution activities necessary to contain and resolve any actual or potential conflicts arising from the reported grievance/appeal. If the case is complex and the stated resolution timeline cannot be met, an interim response will be provided written that informs the stakeholder of the delay, explains the reasons, and offers a revised date for next steps.

The resolution proposal shall be respectful and considerate, including rationale for the decision and any data, empirical evidence, factual experience, or others used in reaching it. If a wider consultation is necessary, a third party can be involved. This third party should be neutral, well-respected, and agreed upon by all parties involved in the conflict redress. In cases where further arbitration is necessary, appropriate government involvement will be requested.

Box 3.0 Tips for Resolving Grievances/Appeals

- Grievance/appeal verification is especially important when the grievance/appeal is about another stakeholder or group of stakeholders. For example, the community may make claims against a member of staff of the investor that need to be investigated before acted upon.
- A regular forum to discuss grievances could be in the form of a monthly meeting where Risk Level 1 grievances are discussed. This forum can be constituted more frequently or as is needed especially in the case of Risk Level 2 and 3 grievances/appeals. This is particularly relevant to phases of the project that are likely to result in the highest degree of impact (e.g., construction). The forum should consist of the GRM Social Officer as convener, participants would include selected host Community leaders, farmers' groups leaders, representatives of the agric investment company, host community youth leaders, etc.
- It is important to be transparent about the mechanism to resolve the issue. The appropriate level of action may require further consultation.
- There are instances where grievances/appeals cannot be resolved in the required timeline. In these cases, monthly updates must be given to the stakeholders who raised the grievance/appeal to provide them a report on progress.

As a last resort, aggrieved parties have a right to take legal action. This is a more formal rights-based approach that shall only be taken if all other approaches have failed or when there are serious conflicts about facts and data. The final decision will be taken by the arbitrator or courts based on compliance with laws, policies, standards, rules, regulations, procedures, past agreements, or MOU.

Step 6: Closure of Grievance

- a. The FRILIA Grievances Social Officer will seek sign-off from the complainant(s)/appellant that the grievance/appeal has been resolved and feedback on the process, resolution and its implementation sought. This will be captured in the Grievance/Appeal Feedback Form (**see Appendix E**)
- b. In instances where the stakeholder is not satisfied with actions taken, the grievance/appeal will either:
 - i. Be escalated to the next level GRC or the Grievance Redress Appeal Committee based on the nature and complexity of the grievance/appeal at the time.
 - ii. If still not satisfied, judicial recourse can be taken.
- c. Once sign-off has occurred, the Grievance/appeal is considered closed, and this should be recorded in the Grievance/Appeal Logbook (**see Appendix F**)

Step 7: Monitoring, Recording and Reporting

Grievances/appeals should be monitored routinely as part of the broader management of the FRILIA Project. This entails good record-keeping of complaints/appeals raised throughout the life of the operation of the Project. Grievance/appeal records must always be made available.

Monthly internal reports will be compiled by the FRILIA Grievance Social Officer and submitted to the FRILIA Technical Committee through the GRM Secretariat/Unit (in a briefing

delivered by the FRILIA Grievance Redress Officer). These grievance and appeals report will include:

- a. The number of grievances and appeals logged in the proceeding period by level and type.
- b. The number of stakeholders that have come back after 7 working days stating they are not satisfied with the resolution.
- c. The number of grievances/appeals unresolved after 7 working days by level and type.
- d. The number of grievances/appeals escalated to next level GRC or straight to the Grievance Redress Appeals Committee.
- e. The number of grievances/appeals resolved between the Project and complainants/appellant, without accessing legal or third-party mediators, by level and type.
- f. The number of grievances/appeals of the same or similar issue.
- g. The measures taken to incorporate these responses into the land-based investment approval process, project design, implementation and management cycle.

These reports and other records will be made available for external review if required.

An appropriate grievance/appeals report should be part of the Project's annual reporting, which may also include the Grievance Redress Committee Proceedings Form (**see Appendix D**).

4.1 Grievance Reporting and Dissemination

Communication Strategy

The Kwara State FRILIA Grievance Redress Unit/Secretariat will ensure effective communication and a dissemination plan for the GRM toolkit and provide awareness on the GRM procedure to ensure that all project stakeholders are informed of the grievance redress process. The Unit/Secretariat will determine the most effective channels and simple and easy to understand leaflets and infographics of the GRM should be made available via physical and online grievance/appeal uptake points. These communication strategies will ensure that all stakeholders are well informed of the process to channel their grievances and appeals. (Refer to State FRILIA Toolkit Communication Strategy.)

To successfully implement the FRILIA GRM, there is a need to create awareness and train the specific MDAs and stakeholders to enhance a better understanding of the GRM Toolkit.

Feedback mechanism

This is the process of providing information to stakeholders and notifying the complainant/appellant of the status of the complaints/appeals. It is important to note the following:

- All grievances and appeals must be acknowledged, and an acknowledged receipt sent to the complainant/appellant within 7 working days, depending on the mode of presenting grievance/appeal. Grievances/appeals lodged verbally and physically or via phone to the FRILIA secretariat must be acknowledged immediately and grievance/appeal receipt issued to the complainant/appellant. Grievances/appeals not physically lodged shall be acknowledged by the FRILIA Grievance Social Officer not later than 7 working days, and acknowledgement receipt must be provided through the preferred mode of communication stated in the grievance/appeal form. (**see Appendix B**)

- The complainant/appellant must be updated on the status of the grievance 7 working days after receipt of the grievance/appeal.
- Complainants/appellants must be informed of the status of their complaints/appeal resolution outcome using the Grievance/appeal Disclosure Form [**see Appendix C**] or other modes of communication such as phone call, text messages or email.
